Dear Parents/Carers,

Please may we ask for your co-operation in an important matter?

One of our pupils is receiving medical treatment at the Bristol Children's Hospital which puts them at risk if they are exposed to:

- COVID-19
- Measles
- Mumps
- Chickenpox
- Shingles

Please let us know immediately if your child has or is suspected of having any of these conditions.

We also need to be made aware if your child has **diarrhoea and vomiting, flu like symptoms, slapped cheek or any other similar illness.**

Your child is not at any risk what so ever from this situation. However, the health and well-being of our pupil who is at risk, does depend on the co-operation of all other parents and we hope you can help us. Thank you.

Yours sincerely

Mr Clarke and Miss Ransom
